GENERAL REVIEW.

MR. HIRAM N. SAGER,
President of the Board of Trade
of the City of Chicago:

SIR:—

I respectfully submit herewith the Fifty-first Annual Report of the Board of Trade of the City of Chicago, that for the year 1908.

The year chronicles a fair average business, remarkable for its uniformity in volume from month to month, free from those surprises which sometimes disturb the market and arrest the prosecution of extensive industrial enterprises, besides imparting distrust in financial circles. The record of the year was not marred by any instance of serious financial embarrassment. Prices ruled high, which, of course, was gratifying to the producer, and contributed substantially to the general financial safety of the country, illustrating anew the vital relation existing between agriculture and commerce, and strongly emphasizing the importance of the great grain exchanges in marketing the grain crops of the Mississippi Valley. Receivers of grain enjoyed a year of unusual prosperity; a steady demand from the east and south furnished a strong market, and prevented any undesirable accumulation of receipts. The movement of grain was therefore free, steady and decidedly satisfactory to all interests concerned.

Here we may properly pause to commend the system of buying and selling for future delivery, which provides a broad, active, and constant market for the sale of wheat, corn, oats and other kinds of grain, as well as provisions, at cash prices, regardless of the volume offered or of the demand for immediate consumption.

"In a modern market," says Mr. Justice Holmes of the United States Supreme Court, "contracts are not confined to sales for immediate delivery. People will endeavor to forecast the future and to make agreements according to their prophecy. Speculation of this kind by competent men is the self adjustment of society to the probable. Its value is well known as a means of avoiding or mitigating catastrophies, equalizing prices, and providing for periods of want. It is true that the success of the strong induces imitation by the weak, and that incompetent persons bring themselves to ruin by undertaking to speculate in their turn. But legislatures and courts generally have recognized that the

natural evolutions of a complex society are to be touched with a very cautious hand, and that such coarse attempts at a remedy for the waste incident to every social function as a simple prohibition, and laws to stop its being, are harmful and vain."

Judge McPherson of the United States Circuit Court says: "The law of contract, the right of contract, is one of the greatest rights we have in this country. It is a great constitutional right, and the words referred to in our Constitution where we are given the right of liberty, do not mean, simply keeping us out of jail. Another kind of liberty is just as sacred as keeping us out of jail, and that is, the liberty to make contracts just as we please. I have a right to make a contract about anything, with such exceptions as operate against the public welfare. No man has the right to make a law that I shall not purchase real estate, or buy wheat; not only that, but I have the right to make contracts for future transactions, and just as legitimately as contracts for immediate execution. You can see that we could not do business in this country if we were limited to making contracts for immediate consummation. I have a perfect right to go out into the country and buy hogs, grain or cattle to be delivered to me next week, or next month, or next year, and that is a valid contract, and a right that can never be taken away from me. It is just as legitimate to make a contract for the future delivery of grain, buying or selling, as it is to get it at once. I suppose the largest part of the grain contracted for in Iowa" (this decision of Judge McPherson's was delivered in Dubuque of that state) "by grain dealers is to be delivered some time in the future to cattle feeders; they want it next month or next spring, at a stipulated price.

"There are thousands of transactions in grain and live stock where the sellers do not have the grain or stock; they expect to go into the market and buy it."

The law of supply and demand will not, in any event, be thwarted. That law can not even be held in abeyance, for any length of time. The speculator's safety lies in working along the line of its declarations, and in reading those declarations in advance of the multitude; and when he has thus read them, it is in bad taste for the multitude to cry out against him. He is entitled to the fruits of his ability, and he must, and does, bear the consequences of his inability.

No man, no edict of a tribunal, legislative or judicial, can prevent one man from contracting with another to deliver a bushel of wheat, a pound of sugar, a bag of gold or any other article, at an agreed price upon a certain date or during a specified month; nor can any power exempt a seller from liability for the non-fulfillment of the terms of any such contract.

Professor Emery, of Yale, says: "If contracts for future delivery were to be limited in all cases to the delivery of things already in possession

of the contracting party, business would be hampered in a thousand different ways. There is absolutely no reason why a wheat dealer or a flour dealer should not make a contract for the delivery of his commodity three months from date, knowing perfectly well that he can fulfill the contract by securing the necessary article. To call this ethically wrong is simply ridiculous. * * *

That this system has been a great advantage to the farmer, no person who knows anything about the facts can possibly doubt. In the old days, a dealer would not think of buying wheat from a farmer at anything like the price at which he could sell it, less the cost of transportation. He had to allow a larger margin for the risk of falling prices, and ordinarily would offer a farmer from five to ten cents a bushel under the ruling price in the central markets. At the present time, since he can at once make a "hedging" sale on the Chicago Board of Trade, the dealer will buy the farmer's wheat on a margin of one cent a bushel, or less; the difference between the two margins redounding to the benefit of the farmer."

Senator Vest, in his speech delivered in the United States Senate in 1892, when the Washburn Bill threatened the overthrow of this system, said, "I have been unable to come to any other conclusion than that this measure is one of the most pernicious which has come before the Congress of the United States during my fourteen years of public service. Speaking for myself, alone, I would be compelled to give up every conviction I entertain as to the structure of our government before I could give my sanction to this bill. * * * I know that explanation will be required in every farming community, why opposition is made, but I would rather explain my vote in every township in Missouri than to put myself on record in favor of a bill about the unconstitutionality and the vicious tendency of which I have the slightest doubt."

Declared an eminent Chicago lawyer, Emery A. Storrs: "As long as the nature of man remains what it is, and what it always has been, enterprises more or less speculative will characterize the commerce and trade of the world. It occurred many years ago to Lord Kenyon, who was a great man within a certain judicial range, that he could regulate by judicial decision the currents of trade. He conceived that buying grain and breadstuffs and holding them for a rise for speculative purposes was against public policy, and immoral, and he therefore, as Chief Justice of the King's Bench, adjudged all such transactions void. But the King's Bench, with all its judicial terrors, might as well have undertaken to change the course of seasons as to have checked enterprise of a speculative character in breadstuffs, and such a clamor was raised about the ears of Lord Chief Justice Kenyon that it was not long before

his decisions were relegated to the limbo of overruled cases, and they are quoted to-day, not as authority, but as demonstrating how far and how absurdly wrong even a great judge may possibly go."

This system is especially valuable to the farmer at the time of harvesting, when receipts of grain are inevitably much in excess of the demand for immediate consumption; without it, the seller would be completely at the mercy of the capitalistic buyer; then would flourish the rankest kind of speculation. Stepping in at this point, the system says to the would-be monopolist—keep your hands off; you shall not take advantage of exceptional and temporary conditions, to the detriment of the producer. Under its operation the prospective demand is brought to the farmer's door as a present and actual one, not primarily in the interest of the buyer exclusively, or the seller exclusively, but with the object of arriving at a fair price, which in a surplus wheat-producing country can only be arrived at by taking into consideration the world's food supply and the world's food needs.

GRAIN CROPS OF THE UNITED STATES.

The latest official estimates of the United States Department of Agriculture of the chief grain crops of the country for the year 1908, comprising wheat, corn, oats, rye and barley, aggregated 4,339,016,000 bushels, produced on 190,283,000 acres, valued at \$2,730,039,000 as against 4,166,013,000 bushels, produced on 185,353,000 acres, valued at \$2,351,264,000 during the year 1907, and 4,839,872,900 bushels, produced on 183,327,839 acres, valued at \$2,057,159,457 during the year 1906, and 4,517,456,291 bushels, produced on 176,670,230 acres, valued at \$1,983,918,825 during the year 1905.

The total value of all farm products of 1908, amounts, as estimated by the Secretary of Agriculture, to \$7,778,000,000, which is \$290,000,000 above the value of such products for 1907, \$1,023,000,000 above that of 1906, \$1,469,000,000 above that of 1905, \$1,619,000,000 above that of 1904, \$1,861,000,000 above that of 1903, and \$3,061,000,000 above the census amount of 1899.

The crop of wheat for 1908, aggregated 437,908,000 bushels of winter wheat, and 226,694,000 bushels of spring wheat, making in all 664,602,000 bushels, valued at \$616,826,000, as against 409,442,000 bushels of winter wheat, valued at \$361,217,000, and 224,645,000 bushels of spring wheat, valued at \$193,220,000, raised during the year 1907.

The crop of corn for the year aggregated 2,668,651,000 bushels, valued at \$1,616,145,000, grown on 101,788,000 acres, as against 2,592,320,000 bushels grown on 99,931,000 acres, valued at \$1,336,901,000 produced during the year 1907, and 2,927,416,091 bushels grown on 96,737,581 acres, valued at \$1,166,626,479 produced during the year 1906.

The valuation of the crop of 1908 exceeds that of any previous year by more than \$279,000,000, and that of the year 1900 by nearly \$865,000,000. Says the Secretary of Agriculture, the value of this crop almost surpasses belief. This wealth of \$1,616,145,000 that has grown out of the soil in four months of rain and sunshine, and some drought, too, is enough to cancel the interest bearing debt of the United States, and to pay for the Panama Canal and fifty battleships. The price of corn was exceptionally high.

In comparison with the averages of the five preceding years, the quantity of the corn crop of this year is 2.1 per cent. higher, and the value 42.6 per cent. higher.

The crop of oats aggregated 807,156,000 bushels, produced on 32,344,000 acres, valued at \$381,171,000, as against 754,443,000 bushels raised on 31,837,000 acres, valued at \$334,568,000 during the year 1907, and 964,904,522 bushels grown on 30,958,768 acres, valued at \$306,292,978 during the year 1906: thus it may be seen that the crop of 1908, although 157,748,000 bushels less than that of 1906, was valued at about \$75,000,000 more. Indeed, the valuation of the crop of 1908 exceeded that of any previous year. The crop of 1900 was about the same in volume, viz: 809,126,000 bushels, but its valuation was \$172,500,000 less. The yield per acre of last year's crop was 25 bushels. Iowa turned out 110,444,000 bushels, next in order came Illinois with 94,300,000 bushels, followed by Wisconsin with 59,004,000 bushels, then came Nebraska, Michigan, Ohio, New York and Indiana. North Dakota brought in 32,737,000 bushels and South Dakota 31,395,000 bushels. The value of the oat crop of the Dakotas was \$64,032,000, the product of 2,764,000 acres.

The crop of barley footed up 166,756,000 bushels produced on 6,646,000 acres, valued at \$92,442,000. The value of last year's crop has been exceeded only by the crop of 1907, which aggregated 153,597,000 bushels, valued at \$102,290,000. The crop of 1906 aggregated 178,916,484 bushels, valued at \$74,235,997. Minnesota raised more barley than any other state, viz: 32,500,000 bushels; next in order came California, followed, in the order of their production, by Wisconsin, South Dakota, North Dakota and Iowa. The average yield of this grain was 25.1 bushels per acre.

The crop of rye aggregated 31,851,000 bushels, produced on 1,948,000 acres, valued at \$23,455,000. The valuation of the crop of 1908 was greater than the valuation of the crop of any previous year. The volume of this crop has not varied materially for many years. Michigan, Pennsylvania and Wisconsin are the largest rye producing states.

During the last ten years the wealth production on the farms of this country has exceeded the fabulous amount of \$60,000,000,000.

The crop of hay was grown on 46,488,000 acres, yielding on an average 1.52 tons per acre, aggregating 70,798,000 tons, valued at \$635,423,000, it being the largest crop of hay ever raised in this country, although its value was more than \$88,000,000 less than the crop of 1907, which aggregated 63,677,00 tons, or about 7,000,000 tons less than the crop of last year. The value of the crop grown in New York amounted to \$70,033,000, and that of Pennsylvania to \$56,124,000, next in valuation was that of Ohio, then followed, in the order of their production, Illinois, Iowa, Michigan, Indiana, Wisconsin and Missouri.

The crop of potatoes occupies a prominent position in the study of the intrinsic value of our chief cereals. The crop of last year aggregated 278,985,000 bushels, produced on 3,257,000 acres, valued at \$197,039,000—the largest valuation of any potato crop ever raised in this country. The largest crop we ever produced was that of 1906, which aggregated 308,038,382 bushels; its valuation, however, was \$39,400,000 less than the crop of last year. The state that raised the largest crop was New York, whose production was 34,850,000 bushels, valued at \$26,138,000, next came the state of Maine which produced 26,100,000 bushels, valued at \$15,921,000, followed by Michigan, Wisconsin, Ohio, Iowa, in the order of their production.

On pages 174, 175, 176, 177, 178 and 179 may be found detailed statements, procured from the United States Agricultural Department, concerning the chief crops of the country for the year 1908, with total figures from 1895 to 1908, inclusive. The value of all cereals reached the grand total of \$2,730,039,000, an amount that is more than \$300,000,000 above that of the previous year, and still greater than in former years.

On page 194 may be seen a statement showing the acreage and production of winter wheat, and also of spring wheat in the United States, each year from 1885 to 1908, inclusive; and page 182 contains an authoritative statement of the world's wheat crop of 1907 and 1908, dividing the importing from the exporting countries; also a statement of the world's crop of rye, oats, maize and barley for those years. These valuable statements are furnished by the Hungarian Minister of Agriculture.

The valuation of all cereals raised during the last year in the United States is more than \$300,000,000 above the valuation of the cereals produced during the year 1907, and 32 per cent. in excess of the average valuation for the five years preceding.

There are at present about 7,000,000 farms in the United States. The value of farm property is estimated at more than \$30,000,000,000, of which land and improvements constitute about 65 per cent. or

\$19 500,000,000; buildings, 18 per cent, or \$5,500,000,000; implements and machinery, 3 per cent, or \$1,000,000,000; live stock, 15 per cent, or \$4,500,000,000.

The value of farm property, says an undoubted and recognized authority, is more than ten times that of all the money in circulation in the United States; thirty times the capital of all the national banks; and greater by \$5,000,000,000 than the world's production of precious metals since the discovery of America. The value of live stock alone exceeds that of all the gold and silver ever produced in the United States.

MARCH GRAIN REPORT.

Wheat.—The Crop Reporting Board of the Bureau of Statistics, United States Department of Agriculture, estimates, from the reports of correspondents and agents of the Bureau, that the quantity of wheat in farmers' hands on March 1, 1909, was about 21.6 per cent, equivalent to 143,692,000 bushels, of last year's crop, as compared with 23.5 per cent (148,721,000 bushels) of the 1907 crop on hand March 1, 1908, and 24.6 per cent (158,008,000 bushels), the average for the past ten years of the quantity on hand on March 1. It is estimated that about 59.2 per cent of the crop will be shipped out of the counties where grown, as compared with 58.0 per cent of the 1907 crop and 56.6 per cent, the average for the past ten years so shipped out.

Corn.—The quantity of corn in farmers' hands on March 1, 1909, is estimated as 39.3 per cent, equivalent to 1,047,763,000 bushels, of last year's crop, as compared with 37.1 per cent (962,429,000 bushels) of the 1907 crop on hand March 1, 1908, and 39.0 per cent (900,663,000 bushels), the average for the past ten years of the quantity of the crop on hand March 1. It is estimated that about 21.3 per cent of the crop will be shipped out of the counties where grown, as compared with 18.0 per cent of the 1907 crop, and 20.0 per cent, the average for the past ten years so shipped out. The proportion of the total crop which is merchantable is estimated as 88.2 per cent of the 1908 crop, as compared with 77.7 per cent of the 1907 crop, and 83.4 per cent, the average of the past ten years.

Oats.—The quantity of oats in farmers' hands on March 1, 1909, is estimated as 34.6 per cent, equivalent to 278,847,000 bushels, of last year's crop, as compared with 35.5 per cent (267,476,000 bushels) of the 1907 crop on hand March 1, 1908, and 37.0 per cent (311,199,000 bushels), the average of the past ten years of the quantity of the crop on hand March 1. It is estimated that 30.3 per cent of the crop will be shipped out of the counties where grown, as compared with 28.0 per cent of the 1907 crop, and 27.3 per cent, the average for the past ten years so shipped out.

The following tables show the percentages of last year's crops of wheat, corn, and oats on hand March 1, 1909, in the principal grain producing states:

Live Stock is vitally connected with successful agriculture, especially in the United States.

It not only appropriates to a large extent the grains and grasses of our fields, but it transforms even the refuse of the farm into profit-yielding material, and contributes to the fertility of the soil, increasing its productivity year after year, thus furnishing a striking example of nature's recuperative forces that lie within her own products. After all, Nature is the great teacher of political economy, and is, moreover, always challenging man to read her lessons. In her wonderful wisdom she does not unfold those lessons faster than man can appreciate or appropriate them—not alone for himself, individually, but for the common welfare.

"More servants wait on man
Than he'll take notice of."

A study of our vast agricultural resources and of their significance would be incomplete without, at least a knowledge of the number and kinds of animals on the farms and ranches of the United States and of their farm value. The number of horses on our farms and ranches, as estimated on January 1, 1909, aggregated 20,640,000, valued at \$1,974,052,000; of mules, 4,053,000, valued at \$437,082,000; of milch cows, 21,720,000, valued at \$702,945,000; of other cattle, 49,379,000, valued at \$863,754,000; of sheep, 56,084,000, valued at \$192,632,000; of swine, 54,147,000, valued at \$354,794,000. Iowa is by far the largest hog producing state, turning out 7,908,000 hogs, valued at \$63,264,000; Wyoming produced the largest number of sheep, 6,591,000, valued at \$22,409,000. For the largest number and the best breeds of horses, we turn to Illinois, Iowa, Ohio and Kansas. The value of horses on the farms in Illinois was, on the first of January, 1909, \$176,907,000; in Iowa, \$146,157,000; in Ohio, \$108,254,000; in Kansas, \$102,528,000. On pages 195, 196 and 197 may be found statements of the number, average price per head, and value of the above mentioned animals on farms and ranches. The enterprise and ambition of the people of a state may in no small degree be measured by the style, condition and breed of their horses, for that means fine barns, comfortable and attractive homes, good pastures, superior fodder and grains, and general progressiveness and comfort in daily, family and community life.

We need to-day a wider outlet for our surplus animals and meats through the opening of foreign markets now closed against them by prohibitive tariff rates, and, upon the broad principle of reciprocity, we advocate trade relations with foreign nations. There is no class of

our population so vitally interested in the tariff question as our stock raisers and farmers generally.

The proposition to establish a Tariff Commission, non-partisan and permanent, appears urgently advisable. This subject is more intricate than it was years ago. During the last decade, the commerce of the country, both foreign and domestic, has grown to proportions that were not anticipated a generation ago, and its volume and importance have greatly increased. We are confronted as we never were before by a studied and persistent competition. Such a Commission would be of essential service to both houses of Congress. It would be a bureau of information concerning the relations sustained by our markets to foreign markets, and not in any way charged with nor infringing upon legislative functions or prerogatives.

The Commission should be selected with sole reference to the qualification of its members to deal with this great subject—the Tariff. A Commission so composed would act not with regard to any party whatsoever, but with the object of extending the foreign commerce of the United States upon a reciprocal basis. “The day of exclusiveness is past.” The day of co-operation and of reciprocal relations is at hand. We can not always sell to foreign markets and withhold our purchases from such markets. For instance, the Commission would investigate the trade relations between the United States and a given country, as to what we had to sell that that country wanted to purchase, and what it had to sell that the United States wanted to purchase, having in view the increase of the trade of the United States with that country, upon the broad principles of reciprocity. If that country would reduce its tariff on those articles which the United States could supply, the United States should respond by reducing its import duties on goods that that country had to sell and that we could profitably dispose of in our domestic trade. Politics would not enter into the matter. In establishing trade relations between merchants or manufacturers in one market, or between domestic markets, the question is never raised as to the political character or position of the buyer or seller. We simply see what can be done to make the trade more active, larger and more profitable, stimulating manufacturers so to prepare their goods that an increased demand may result. So should it be in trade relations between countries. This, I repeat, is a question, and an urgent one, not of politics, but of the exchange of commodities in view of mutually advantageous results.

Congress should heed the judgment of merchants in framing tariff legislation; it should not depend upon mere theories tinged more

or less by political ambition. The sooner this is recognized and acted upon, the sooner will enlargement come to our foreign trade, and that commercial amity be established between the United States and foreign markets, which is the most effective guarantee of universal peace.

In this connection, I take pleasure in calling your attention to the creation of the National Council of Commerce, Washington, D. C., organized at the instance of Secretary Straus, United States Department of Commerce and Labor. The mercantile instincts and distinguished business experience and sagacity of the Honorable Secretary led him early in the administration of his office, to recognize the desirability, if not the necessity, of organizing a body of representative merchants composed of delegates from prominent commercial organizations all over the country, apart from geographical or political considerations, and wholly national in its character, which should act in an advisory capacity with the Department of Commerce and Labor in promoting our domestic and foreign commerce. This relationship is calculated to be of great advantage to the varied and important mercantile interests represented, as well as to the Department of the National Government specially charged with extending its commerce, inland and foreign.

The Council, and the Department which it assists, are making a systematic, analytical study of the wants of foreign markets, which might be supplied by manufacturers of the United States; and of the productions of foreign countries which could be favorably disposed of in our own markets, with a view of recommending such tariff rates as, if adopted, will be beneficial to the markets of the United States.

This is a step, and a great step, in the right direction. No wonder that bitter and partisan tariff wars, in Congress and out of Congress, have disturbed the commercial and industrial life of the Nation. Secretary Straus's services to our commercial and industrial interests, by the organization of the National Council of Commerce, can scarcely be exaggerated. The door that he has so wisely opened will never be closed, if our trade organizations rightly appreciate the great opportunity presented.

I respectfully suggest that this auxiliary of the National Department of Commerce and Labor receive the cordial support of the Chicago Board of Trade, in order that the Board may identify itself in a special, semi-official and effective way with the general commercial and industrial progress of the entire country.

Attention is called to the following statements obtained from the United States Department of Agriculture, showing the extent of the wheat, corn and oat crops of various countries for a series of years:

REAL ESTATE

Every office in the Board of Trade Building is rented. The expenditures on real estate account have only been those demanded by proper care of the building. No special expenditures for repairs have been necessary.

Disbursements on real estate account, exclusive of construction, interests and insurance, amounted to \$65,854.45, as compared with \$62,306.17 expended for the preceding year. The amount paid out during the year for construction, etc., was \$3,217.04. The amount of revenue derived from rentals, janitor service, electric lights, etc., was \$139,263.02, as compared with \$136,283.69 for the year 1907.

The substantial cover, or roof, constructed during this year over the bridge connecting the Board of Trade Building with the Postal Telegraph Building has proved of great convenience to our members, and was constructed by the Rialto Company without expense to the Board. The character of the material used in the construction of the cover, or roof, was approved by the Board. It was also provided that the

same shall be kept in such good condition and repair as may be satisfactory to the Board of Trade, and at the expense of the Rialto Company. It was also provided that the right given the Rialto Company to maintain such cover over said bridge may be terminated by the Board whenever it sees fit, and in that event, the Rialto Company agrees to remove said cover, or roof, as its own expense, and upon failure to do so, upon the expiration of three months after being requested so to do, the Board may remove the same, and the expense thereof shall be paid to the Board by the Rialto Company.

WEIGHING DEPARTMENT

During the year 1908 the Department weighed 299,992 cars of which 172,818 were received into elevators and warehouses; 116,293 cars were shipped out and 10,881 were transferred from car to car at the various railroad yards and elevators. The Department also weighed 48,714,705 bushels of grain to and from vessels and canal boats and 41,759 bags of seed. The total quantity of grain weighed by the department reaches approximately 385,000,000 bushels of which 335,000,000 bushels were transported by cars and the balance by lake craft. Decrease from 1907 in number of cars weighed 22,730; decrease from 1907 in number of bushels of grain weighed to and from lake craft 26,545,245.

TRANSPORTATION DEPARTMENT

The report of the Transportation Committee shows that many complicated problems, involving the adjustment of rates to and from this market and the application of the various rules and regulations thereto, have confronted the Transportation Committee and were for the most part satisfactorily adjusted.

Among the matters of the greatest interest which have engaged the attention of the Committee may be mentioned the following:

Uniform Bill of Lading

Efforts to secure a simple form of bill of lading, free from illegal and burdensome conditions, have been in progress for some years. As a result of joint conferences and hearings before the Interstate Commerce Commission, that body finally recommended a bill of lading for adoption, effective December 1, 1908.

While the Commission has no authority under the present law to make a bill of lading, nevertheless, the Committee felt that some recognition of the earnest efforts of the Commission to secure a better bill of lading than heretofore used should be made; and, therefore, this Committee recommended by resolution to the Honorable Board of Directors the adoption of this bill of lading as proposed by the Commission.

There are admitted defects in this instrument; nevertheless, it is a decided improvement over the former bills of lading in use, and this Committee will continue its efforts looking to the elimination of such objectional features and to the securing of a bill of lading that will be simple in form and furnish adequate protection to shippers for property in transit.

SWITCHING CHARGES AND ORDER OF THE ILLINOIS RAILROAD AND WAREHOUSE COMMISSION

The Committee has co-operated with the Illinois Railroad and Warehouse Commission in securing a uniform and equitable rule in respect to switching charges, and the Commission promulgated an order covering the same, which has the effect of reducing the charges for switching service on grain and grain products below those heretofore made.

Chicago Should be a Rate Basing Point

It is of the utmost importance that rates to and from this market be made upon the basis of specific rates in and out, thus minimizing the use of transit, involving, as it does, the tying up of large sums of money and a complicated system of handling.

The Interstate Commerce Commission does not regard transit privileges favorably and is in sympathy with the efforts of the Committee to secure a more simplified application of rates. The Department has

induced the railways to apply specifics to and from this market on grain destined to Central Freight Association Territory, and further improvements along these lines will be made.

RATES FROM IOWA AND THE NORTHWEST AND FROM OMAHA, NEBR., TO SOUTHEASTERN AND CAROLINA TERRITORIES, INCLUDING NEW ORLEANS, LA., MOBILE, ALA., VICKSBURG, MISS., AND OTHER POINTS IN MISSISSIPPI VALLEY TERRITORY.

The greatest need of this market today is an enlarged field for distribution. Under a system of tariffs that has been in existence for twenty years or more the rates from Iowa and from northwestern territory to southeast and Carolina Territories, and from Omaha, Nebr., have been from 4 to 8 cents per 100 pounds higher through Chicago than through Peoria, St. Louis and other gateways. The Transportation Committee has made substantial progress towards securing equalized rates through Chicago, thus opening up this southeastern territory for our members.

Many other things have been accomplished for the benefit of this market, such as

- (a) The entire removal of reconsigning charges.
- (b) The cancellation of penalty of one cent per 100 pounds on grain products manufactured at Chicago.
- (c) The securing of freight house facilities for the loading and unloading of grass seeds, in sacks, carloads.
- (d) The elimination of switching or other charges on reinspected grain.
- (e) The adoption of uniform reconsigning or disposition orders and receipts for bills of lading.

And other things, which a lack of space prevents our mentioning, but all of which tend to lessen the cost of handling grain through this market, and, consequently, broadening its scope and increasing its receipts to the benefit of our members.

Other new problems are yet before us to be solved, the most important of which is perhaps,

RATES ON EX-LAKE GRAIN VERSUS ALL-RAIL RATES

The present adjustment of rates is such that the market is deprived to a large extent of the advantage that we ought to enjoy by reason of our location on the lake. This matter will have the early attention of your Committee.

In the prosecution of the labors of the Committee, they have endeavored to deal fairly and in a broad way with the railways, believing that the best results could be obtained through co-operation, and further believing that their work must be of a constructive character if it is to

be of permanent value. They have not advocated unreasonable measures, but have sought to secure rules and regulations that will be just and equitable alike to all markets and carriers competing in the same territory.

The efforts of the department have in most cases been directed toward the equalization rather than in the measure of the rate itself. For the most part we have been met in a broad spirit of co-operation on the part of the carriers.

The Transportation Committee is to be congratulated on the successful solution of a variety of problems of far reaching and permanent benefits to this market, and also upon the great devotion of the members of that Committee to the work of the department.

LEGAL DEPARTMENT

No new bucket-shop litigation has been commenced during the past year. The federal judge at Cincinnati has not as yet rendered his decision in the contempt case against the O'Dell Stock & Grain Company, and those connected with it, although that case was argued before him in March, 1907.

In the suit by this association in the Federal Court at Madison, Wisconsin, against the Superior Board of Trade to prevent it from counterfeiting your quotations, much evidence was taken, and in February, 1908, a final decree was rendered in favor of the Board, permanently enjoining the Superior Board and its officials from permitting the sending out of quotations of wheat, corn, oats, pork, lard and short ribs, which were uniformly a certain fraction away from your quotations, or so near your quotations as to be mistaken for them. This case established a new and very important principle in the law relating to your quotations. After your right to enjoin the bucket-shops from posting your quotations was legally established, some of them resorted to the device of getting your quotations and sending them out a certain fraction higher or lower than your quotations, and in order to do this established a so-called exchange upon which they engaged in fictitious trades for the purpose of cloaking their work of this counterfeiting. The favorable outcome of this case demonstrates that the courts will protect you against this method of infringement upon your property right in the quotations.

A similar suit instituted against the so-called National Board of Trade, at Kansas City, Missouri, is still pending, but that organization has gone out of business, and those connected with it are now engaged in a similar scheme in the state of Kansas.

The two suits pending at the beginning of this year against the Board and others to reach the memberships of certain members for the collection of debts owing by them, or to compel the transfer of memberships are still undisposed of.

The suit brought by Emma Taylor against the Board and others for \$20,000 for alleged malicious prosecution in a criminal suit, has been settled by the Board by the payment of \$125.00.

The litigation brought by the State's Attorney against certain elevators and their lesser railroad companies, which is referred to in the last annual report, has been decided by the Supreme Court of the State adversely to the Board.

Following bankruptcy proceedings against A. O. Brown & Company, members of the association, a test suit was brought attacking the validity of the margin system of this Board as against proceedings in bankruptcy, it being claimed that margins deposited to secure contracts constituted a part of the general fund in bankruptcy. But the Superior Court of Cook County (Judge Ball) refused an injunction and dismissed the suit, and thus materially strengthened the legal position of your margin system.

A large number of Missouri River millers instituted before the Interstate Commerce Commission a proceeding against certain railroads to compel a reduction of the existing flour rates from the Missouri River to the seaboard. As the proposed changes of rates threatened to work to the disadvantage of this market and bring about general disorder in rates for flour and grain, the Attorney of the Board was directed to intervene and resist the suit. The evidence in the case has been taken, and the case was, in May, 1908, submitted on arguments and printed briefs, but as yet the Commission has made no decision.

NOTE.—Prior to the year 1820 no official records of the arrival of alien passengers were kept. It is estimated, however, that the total number arriving in the United States from the foundation of the government to the year 1820 was 250,000.

Up to the year 1856 no record was kept of immigrants in distinction from the arrival of alien passengers

Of the number of immigrants arrived during the year ended June 30, 1908, there came from
 Un'd Kingdom 93,380 Norway..... 12,412 China 1,397 Aus. Hungary. 163,509
 Germany..... 32,309 Italy 128,503 Russia 156,711 Sweden..... 12,809

The total number of European immigrants for the last fiscal year was 691,901.

Of the total number of immigrants for the year, 506,912 were males and 275,958 were females.

The year ended June 30, 1907, has been the year of the greatest immigration.

Owing to the absence of law for the collection of statistics in relation to immigrants by railroads, those from the British North American possessions and from Mexico were not included from July 1, 1885, to June 30 1895

NOTE.—Up to 1850 only the aggregate valuations in the several counties were reported to the State officers, and from 1852 to 1857, inclusive, a few counties returned only the aggregates; hence the details of real estate and personal property valuations are not complete for those years. In 1867 and 1868 the details of valuation are not entirely correct, owing to changes by the operation of the equalization law. Since 1868 the valuations are as equalized. The total valuations in each of the several years are correct and official.

The valuations for 1873 as equalized are largely in excess of any previous year. In 1874 some changes were made in the manner of equalizing the assessments, resulting in reducing all the valuations, especially those of railroad property.

The valuations for 1899 and subsequent years are the one-fifth of the full fair cash valuations of property as determined by the Assessing officers, under the requirements of the Assessment Act of 1898.

The State debt, as noted, represents it as it stood on the 1st of January in each of the several years to 1869; in 1869 and 1870, as it stood December 1; in 1871, as it stood December 31; from 1873 to 1879, as it stood December 1.

H. It is further provided that to members who personally do their own buying and selling, but who clear their trades through other members, the minimum rates of commission on all transactions opened and closed *within ten days* shall be twenty-five cents per 1000 bushels of grain, one cent per package of pork, three dollars per lot of 250 tierces of lard, and five cents per 1000 pounds of D. S. short ribs or D. S. short clears.

It is further provided that the minimum rates of commission on all such trades *as are not actually closed within the prescribed limit of ten days*, shall be members' rates; but the clearing member may pay the principal the rates of brokerage prescribed in Section 2 of this Rule, as compensation for executing such trades. If a broker is employed to execute any portion of such trades, the party employing such broker shall pay the brokerage thus incurred, the minimum rates for such service being those prescribed in Section 2 of this Rule.

It is hereby provided that upon transactions specified in the foregoing paragraphs of this section which are made for the account of members of this Association, or for firms one at least of whose general partners is a member of this Association, or for corporations entitled under Section 8 of this Rule to members' rates, one-half of the foregoing rates shall be the minimum rates charged.

F. Whenever members of this Association, acting as principals or agents, shall have made a purchase of any of the property mentioned in this section, to arrive, or in transit, such members shall notify in writing, the party from whom such purchase was made, of the price and terms of such purchase on the same day upon which the transaction takes place.

These requirements shall apply only to shipments from country points, either to Chicago or to other markets, if purchased in Chicago market, whether such property is to be shipped or is in transit.

CORPORATIONS.

SECTION 8. A. Any corporation having for one of its executive officers and stockholders a member of this Board, may submit to the Board of Directors, or a committee appointed for such purpose, a full disclosure of the relations of such member to such corporation, and if such member shall, upon investigation, be found to be a real bona fide and substantial executive officer and stockholder of such corporation, and that such relation is not created for the sole purpose of obtaining members' rates, such corporation shall be thereafter, and so long as such member shall remain such officer and stockholder, entitled to members' rates provided in this rule; provided, that for the purpose of this rule, not more than one corporation can be represented by the same member of this Association as its executive officer.

Whenever any such corporation shall be so found entitled to members' rates, it shall, whenever requested by the Board of Directors, or such committee, make a full disclosure of the then existing relations of such member to such corporation. If it shall refuse so to do, its right to members' rates shall thereupon cease.

B. On all transactions for the account of any officer, agent, employe, or stockholder of any such corporation, not a member of this Association, such corporation must exact non-members' rates of commissions.

C. No member can be deemed the representative of two corporations, or two firms, or a firm and a corporation, for the purpose of giving either firm or corporation members' rates under this rule.

CONSTRUCTIONS.

SECTION 9. A. On all transactions where the purchase or sale of cash grain is made contingent on the price ruling for future delivery, and where the purchase or sale of the future delivery is at once accomplished, fixing by such transaction the value of the cash

grain so bought or sold, it shall be construed that the purchase or sale of the future delivery shall be a part of the cash transaction. Should the purchase or sale of grain for future delivery upon which the cash transaction is based be held subject to the convenience or subject to the orders of the parties with whom such transaction is made, then all such business for future delivery shall be subject to the regular rates of commission as prescribed in this rule.

B. In no case shall the aggregate amount of brokerage allowed on any transaction be such that the net commission to members on such transaction shall be less than the minimum rates prescribed in Paragraph H, Section 4 of this rule, for clearing trades for members.

C. Members cannot abate or divide with other members the rates prescribed in Paragraph H, Section 4 of this rule, for clearing.

D. A firm whose only member of the Association is a special partner in such firm is not entitled to members' rates.

E. A firm or a corporation shall charge regular rates of commission on all transactions in which only a part of such firm or corporation appears as a principal.

Free telegraphic communication, however, shall not be construed as a violation of this rule.

G. The Board of Directors is authorized to offer a reward of not more than twenty-five hundred dollars to any person who shall furnish evidence that does convict any member, firm or corporation of a violation of this rule.

and intent of this rule that all such trading which may tend to the maintenance of a public market shall be confined within the hours above specified. On any alleged violation by a member of this Association of the provisions of this rule which shall be brought to the attention of the President of the Board by creditable report, it shall be the duty of the President to cause said member to be summoned before the Board of Directors, and if the party shall be found guilty of such violation of the rule, he shall be suspended for not less than one month nor more than one year, and for a second violation he shall be expelled.

Irregular Transactions. Penalty.

SEC. 4. All contracts and offers to contract for grain for future delivery shall be at one figure of price, having as the multiple of price one-eighth of a cent per bushel; provided, however, that offers and contracts may be made to include one-half the total amount of each contract at any given price, and the remainder of said contract at a price one-eighth of one cent per bushel higher or lower than the other moiety and not otherwise; the same principle to apply on transactions for the future delivery of provisions; and every infraction of this rule shall be deemed misconduct and punishable by suspension at the discretion of the Board of Directors. And furthermore, the proprietors or managers of such warehouse shall be required to sell their regular contract grades of grain or flax seed in the Chicago market only, and shall not ship any grain from any regular warehouse, of which they are proprietors or managers, except those grades which are denominated and understood to be “off grades”; *provided*, however, that the Board of Directors of the Board of Trade may, upon application, grant to such elevator proprietors or managers the privilege of shipping such quantity of grain from their elevators as will sufficiently relieve such elevators from being overloaded, or as will maintain the condition of such grain; and furthermore, the proprietors or managers of such warehouse shall be prohibited from buying grain at any non-competing points.

**Requirement

regular.**

Whenever application shall be made by the proprietors or managers of any warehouse to have the same declared a regular warehouse for the storage of grain and flaxseed under the provisions of this Rule (except in cases of renewal on the first day of July in each year, as hereinbefore provided) any grain or flaxseed that may be contained in said warehouse at the time of such application, shall be required to be removed from said warehouse, when after it shall have been graded and inspected according to its quality and condition then existing by the duly constituted authorities, such grain or flaxseed may then again be received into said warehouse and receipts issued therefor shall be registered and dated upon the day when such grain or flaxseed is again actually received into said warehouse.

**Supervising
inspector.**

The chief inspector of grain of the State of Illinois may, upon request of the Board of Directors of the Board of Trade, appoint a

supervising inspector who shall so supervise the storage and distribution of grain and of flax seed in such warehouse that no discrimination or selection can be made in the quality or grade of grain or flax seed in the delivery of such grain or flax seed.

Warehouse receipts issued by warehouses so declared regular by the Board of Directors shall be regular for delivery on contracts under the Rules of the Board of Trade so long as the said warehouse shall continue to be a regular warehouse, but the term for which any warehouse is declared a regular warehouse to issue such receipts shall be limited to and expire on the first day of July in each year. No receipts issued on grain received in any warehouse shall be regular for delivery under the Rules of the Board of Trade after that date unless the warehouse upon which it has been issued has again been declared a regular warehouse by the Board of Directors; *provided*, however, that receipts issued before the first day of July by warehouses which have been regular warehouses during the preceding year, but which have not been declared regular for the succeeding year, shall be regular for delivery upon such contracts for six months after the first day of July; but nothing contained herein shall prevent the Board of Directors from declaring any warehouse, or the receipts thereof, irregular at any time for violation or non-compliance with the laws of the State of Illinois or any of the Rules of the Board of Trade or of the Regulations and Requirements of the Board of Directors.

Emergency clause.

And *provided further*, that in case it shall happen that at any time there shall be no warehouses which shall be regular warehouses for the storage of grain and flax seed, then the Board of Directors may declare any warehouses suitable for the storage of grain or flaxseed, whose aggregate capacity shall not exceed twenty-five million (25,000,000) bushels, regular warehouses for the storage of grain or flax seed, upon such terms and for such period as the Board of Directors in its discretion may deem necessary or proper, and the warehouse receipts issued by warehouses so declared regular under this proviso, shall be regular for delivery on contracts under the Rules of the Board of Trade, in the same manner as if issued by warehouses declared regular under the foregoing provisions of this section in regard to declaring warehouses regular for the term ending on the first day of July in each year.

SEC. 2. All deliveries of grain and flaxseed in 1,000 and 5,000 bushel lots; of mess pork, lard or s. p. hams in 50 and 250 package lots; or of meats in lots of 25,000 and 50,000 pounds in store, on time contracts, after 11 o'clock A. M., shall be made in the Exchange hall, or in such other place as may be designated by the Board of Directors, between the hours of 1:30 and 2 o'clock P. M., and shall be made by a notice in writing, which notice shall state on its face the place of business of its issuer. Such notice shall state in detail the warehouse receipts proposed to be delivered, and in the case of provisions in packages, or lard, the packer's brand, and the contract price on which delivery is proposed to be made, also the net cash value (deducting extra storage) of said property at the market price. At a stated hour each day it shall be the duty of the Secretary to post or cause to be posted, in a suitable place, the market price of such grain or provisions as are deliverable on time contracts. Such delivery notice may be passed from one purchaser to another, before 2 o'clock P. M., by indorsement thereon, by the seller, of the name of the party to whom it is to be delivered, together with the contract price at which the property is sold, and also the time at which the delivery is made. The first delivery of such notice shall be made before 1:35 o'clock P. M., and any party holding such notice longer than five minutes, as shown by the indorsements on same of the time of the previous delivery, shall not be permitted to deliver it. Any person indorsing upon said notices any fictitious name or the name of any person, firm or corporation other than that of the person, firm or corporation to whom he tenders the notice upon a bona fide sale of the property mentioned therein actually made by himself or the firm or corporation he represents or upon the written order of another member, firm or corporation on whose behalf he makes such tender, or who shall make any alteration therein or any substitution of property other than that originally named in the notice by the original issuer thereof, shall be deemed guilty of gross fraud, and, if a member, he shall be suspended or expelled, at the discretion of the Board of Directors, and if not a member, such person shall forever thereafter be excluded from the Exchange hall, delivery and settlement rooms of the Association. All delivery notices issued under this Rule shall be consecutively numbered by the parties issuing them. Notice of readiness to deliver property as herein provided, and all subsequent transfers of such notices, shall be deemed and held to be a valid and sufficient tender of property, on time contracts, under the Rules of this Board of Trade, provided the property is actually delivered, or is shown to have been ready for delivery, in the manner and upon the terms herein provided. It shall be the duty of the party regularly holding such notice at 2 o'clock P. M., to present the same at the office of its issuer before 2:30 o'clock P. M., of the same day, together with a certified check on some Chicago bank,

in good standing, or other satisfactory payment for the net amount due for the property represented by said notice at the market price; and upon tendering said notice, with payment, at the office of its issuer, the holder of said notice shall be entitled to receive the property represented by same. All differences due from or to parties to such delivery shall be paid upon the basis of a full delivery, and no more, and each purchaser receiving notice of delivery shall be responsible to the seller from whom the notice was received for the difference between the price actually paid for the property and their contract price. In cases where the seller's contract price is less than the price actually paid for the property, such seller shall be responsible to the purchaser to whom he delivered the notice, for the difference. All such differences shall be due and payable immediately upon the delivery and payment for the actual property; it being the duty of each person transferring the delivery notice to ascertain what price was actually paid for the property.

On the first business day of each month all deliveries on time contracts of the kinds of property mentioned in this section, if delivered before 11 o'clock A. M., shall be delivered in the Exchange hall, or such other place as may be designated by the Board of Directors, between the hours of 8:30 and 9:15 o'clock A. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified for similar deliveries after 11 o'clock. The delivery notice shall be of the same form and character in all respects as that prescribed for deliveries between 1:30 and 2 o'clock, except that it shall state the net value (deducting extra storage) of the property at the closing market price on the last business day of the previous month, for the delivery on which the property is tendered, which price shall be posted on the bulletin board of the settlement room immediately after the close of the market. The first delivery of the notice shall not be later than 8:35 o'clock, and it shall be the duty of the party regularly holding such notice at 9:15 o'clock to present the same at the office of its issuer before 11:00 o'clock A. M. of the same day, together with a certified check on some Chicago bank, in good standing, or other satisfactory payment, for the net amount due for the property represented by said notice, as hereinbefore provided, and upon tendering said notice with payment at the office of the issuer, the holder of such notice shall be entitled to receive the property represented by the same.

M. In case property represented by either of the delivery notices mentioned in this section is not called and paid for as herein provided, it may be held by the issuer of the notice, for and at the expense for storage, interest, insurance, or other risk of the party whom it may concern, until 12 o'clock M. of the next business day, at which time it shall be sold in open market

for account of whom it may concern; or it may be sold, if the notice was delivered before 9:15 o'clock A. M., at any time between 12:30 o'clock P. M. of that day and 12 o'clock M. of the next business day. If the notice was delivered between 1:30 and 2 o'clock P. M., it may be sold at any time between the beginning of trading hours and 12 o'clock M. of the next business day. The party holding the property shall, however, notify the party to whom he delivered the original delivery notice, before 2 o'clock of the same day of the default, if the delivery notice was delivered before 9:15 o'clock A. M., or before 4 o'clock P. M., if the delivery notice was delivered between 1:30 o'clock and 2 o'clock P. M.—such notice of default to be in writing; and each purchaser receiving said notice of default shall in turn deliver the same, without delay, to the party to whom he passed the original notice of proposed delivery. All expense and risk of carrying property defaulted on, including a commission of one-quarter of one cent per bushel on grain, and one-quarter of one per cent. on the market value of provisions, shall be payable to the party required to make resale, by the party to whom he had the property sold, he to be reimbursed by the one to whom he delivered the notice of delivery, and so on until it is finally paid by the party in default. And in case of such default and resale of property, all differences shall be adjusted, as hereinbefore provided, on the basis of the price at which the property shall have been resold. All parties having property due them on time sales shall be present, or shall be represented by an authorized employe, in the Exchange hall, or such other place as may be designated by the Board of Directors, between the hours of 1:30 and 2 o'clock P. M. of each business day, and on days when the Board adjourns at 12 o'clock M., between the hours of 12:30 and 1:00 o'clock P. M., and on the first business day of each month between the hours of 8:30 and 9:15 o'clock A. M.; and admission to the Exchange hall, or such other place as may be designated by the Board of Directors, shall be denied all parties after 1:30, 12:30 or 8:30 o'clock, as the case may be. Any property which cannot be delivered owing to the absence of the buyer from the Exchange hall, or such other place as the Directors may have designated for the purpose of delivery, may be sold out by the party having same sold to such absentee, as hereinbefore provided in cases of default; all expenses and risk of carrying the property, commissions, etc., shall be paid by the absentee, the same as in case of default; *provided, however*, such property shall not be sold until the absentee has had notice in writing, either delivered to him in person, to his business representative, at his place of business, or left at the Secretary's office in case he has no regular place of business, that the property was ready for delivery under this Rule on his contract. In case it should appear on complaint duly made to the Board of Directors that any member has been guilty of issuing a notice of readiness to deliver property as herein provided, who had not the property mentioned in such notice in his control or possession at the time of issuing such notice, or, having issued such notice, shall thereafter dispose of the property, except as herein provided, or who refuses to deliver up such property when demanded, as provided for under this Rule, such party shall be deemed guilty of gross fraud, and shall be suspended or expelled from membership in this Association, under the provisions of Rule IV.

Deliveries when Board adjourns at 12 m.

Provided, however, that on all Saturdays when there is a regular business session of the Association, all deliveries shall be made in the Exchange hall; a morning delivery between the hours of 8:30 o'clock A. M. and 9:15 o'clock A. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified for similar deliveries after 11:00 o'clock A. M. The delivery notice shall be of the same form and character in all respects as that prescribed for deliveries between 1:30 and 2:00 o'clock P. M., except that it shall state the net value, deducting extra storage of the property at the closing market price on the immediately preceding business day, for the delivery on which the property is tendered, which price

shall be posted upon a suitably designated bulletin board immediately after the close of the market. The first delivery of the notice shall not be later than 8:35 o'clock A. M., and it shall be the duty of the party regularly holding such notice at 9:15 o'clock A. M. to present the same at the office of its issuer before 11:00 o'clock A. M. of the same day, together with certified check on some Chicago bank in good standing, or other satisfactory payment, for the net amount due for property represented by said notice, as hereinbefore provided; and upon tendering said notice with payment at the office of the issuer, the holder of such notice shall be entitled to receive the property represented by the same; and also, on such Saturdays, as fall on the last business day of the month when there is a regular business session of this Association, an afternoon delivery between 12:30 and 1:00 o'clock P. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified in similar deliveries after 11:00 o'clock A. M.

The delivery notice shall be of the same form and character in all respects as that prescribed for deliveries after 11:00 o'clock A. M. The first delivery of the notice shall not be later than 12:35 o'clock P. M., and it shall be the duty of the party regularly holding such notice at 1:00 o'clock P. M. to present the same at the office of its issuer before 11:00 o'clock A. M. of the next following banking day, together with certified check on some Chicago bank in good standing, or other satisfactory payment, for the net face value of the property represented by said notice, without adding anything additional for interest or insurance, or without deducting any additional storage for the period between the time of delivery and the time of actual payment.

And provided further, that on the last business day of any month, when deliveries of articles mentioned in this Section are made after 11 o'clock A. M., the Secretary of the Board, or any person acting under his direction, shall have the power to extend the time for such deliveries from 2 o'clock p. m. (if on a Saturday, from 1 o'clock P. M.), as often and to such time during that day as in his judgment it may be necessary to enable all, who are prepared to do so, to tender or receive delivery notices. When any extension of time is made under this proviso, it shall be announced in the Exchange hall, or in such other place as may be designated by the Board of Directors for the purpose of making deliveries, on or before the expiration of the time hereinbefore stated for the termination of such deliveries; in the event of the extension of the time for deliveries as herein provided, wherever the time stated in this rule would be affected by such extension, such time shall in all cases be correspondingly extended.

It is the object and intent of this Section that all contracts for the purchase and for the sale of commodities mentioned therein shall be carried out in absolute good faith, it being expressly understood that in construing this Section its purely technical provisions—the principal purpose of which is to facilitate deliveries—must not be used as a pretext to evade the obligations of a contract. Any violation, however, of any of the provisions of this Section with intent to thwart or impede deliveries shall be deemed dishonorable conduct under the provisions of Section 9 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

Cost to be paid for weighing.

It shall be the duty of members of this Board, or of firms or corporations represented in its membership, either acting as commission merchants in the sale of grain or flaxseed on the Chicago market, or acting as purchasers of grain or flaxseed at country points, when Chicago weights are the basis of settlement, to furnish the consignor or seller, as the case may be, a Board of Trade or disinterested certificate of weights. If the purchaser fails to provide by the close of the next business day after date of purchase such written instructions, then the property involved shall be at his risk in all particulars.

Whenever grain, mill feed or seeds are sold to be switched or delivered or for shipment beyond Chicago, and after such sale has been made, it shall develop that the railroad nominated by the buyer is unable to accept or handle the property tendered, it shall be the duty of the buyer upon receipt of request from the seller, to provide or nominate the name of a railroad which will receive such property; and upon failure of the buyer to provide such written instructions within 48 hours after notice has been given by the seller, the seller

All property sold as hereinbefore provided for transfer or for cleaning, clipping or mixing at time of transfer, must be transferred or unloaded within fifteen days after delivery to the railroad nominated by the buyer, and be weighed under the supervision of an official weighmaster. On all property not transferred or unloaded within the fifteen days, for any reason whatsoever, the purchaser shall pay eighty (80) per cent of the value of the grain—on demand—for the grain so delayed, based on shipper's weights, or based on the capacity of the car; subject, however, to final adjustment based on official weights at Chicago, or as may be otherwise agreed between buyer and seller.

It shall be the duty of the buyer to provide and deliver within 48 hours to the railroad or elevator nominated by him for the transfer, mixing, clipping, cleaning or shipment of any property bought by him, the necessary instructions for the unloading, cleaning, mixing or handling and shipment of such grain, and upon the failure to provide such necessary orders within 48 hours after the delivery of the property to the designated railroad or tracks he shall pay, in addition to the contract price, one per cent per day as liquidated damage for each day's delay, until such necessary instructions have been delivered; the purchaser shall also be responsible for any delay caused by neglect or errors that may occur through his agents.

The delivery of samples of grain in the Exchange Room by non-members, through any department of the Board of Trade, in competition with members of the Board of Trade, is prohibited.

Disinterested Committee.

No member of the Grain Committee shall sit on any case in which he is directly or indirectly interested.

Form of Making Appeal.

The President of the Board of Trade shall select another member of the Association to serve in the place of any regular member who is disqualified or unable to serve. The fees shall be \$5.00 per car; \$10.00 per canal boat, \$50.00 per vessel. Such fees shall be equally distributed among the members serving. In case the Grain Committee shall decide in favor of the appellant, the appellee shall, within one business day, reimburse the appellant with the amount of the appeal fees, as hereinbefore provided, and further pay all additional expenses incurred by the Grain Committee in securing samples and conducting the case.

The Grain Committee may decide an appeal either by examination of the grain in car, boat or vessel; or by sample obtained in such manner as in their discretion they may deem advisable.

The committee shall be authorized, in determining the correctness of any inspection they are called upon to revise, to adopt any measure they may deem necessary under the circumstances for the ascertainment of its true character. The committee shall be entitled to fees amounting to three dollars each for each case of reference decided by them, to be paid by the party against whom the decision shall be made.

SEC. 2. The Board of Directors will also appoint a suitable person as Chief Inspector of Provisions, who shall be required to give a bond in such amount as shall be fixed by the Board of Directors, conditioned for the faithful performance of his duties as prescribed by the Rules and Regulations of the Board of Trade of the City of Chicago, and the Regulations of the Board of Directors; which said bond shall be made to the Board of Trade of the City of Chicago, for the use and benefit of any parties having claims under the Rules and Regulations of the said Board of Trade for damages against said Chief Inspector on account of any of his official acts. One hundred and forty pound sacks should be piled in two tiers lengthwise of the car, the mouths of sacks placed toward center of car (see Fig. 2), leaving the space between the tiers of sacks in the center of the car free and clear for the convenience of the Inspector.

The sacks of flour should be piled as follows: The sacks on the floor to be placed four inches from the side walls of car, and sacks so piled as to gradually incline to the walls of the car until the top rows press strongly against the said walls, as shown in Fig. 2.

Damage to grain to be reported. Fifth. The proprietors or managers of such warehouses shall promptly, by the proper publication, advise the trade and the public of any damage to grain or flax seed held in store by them, whenever such damage shall occur to an extent that will render them unwilling to purchase and withdraw from store, at their own cost, all such damaged grain.

Warehouses may be declared no longer "regular." Sixth. Any important change in the conditions of any warehouse, or disregard or evasions of the above requirements, shall at any time be a sufficient cause for declaring any such warehouse no longer a regular warehouse within the meaning of the Rules of the Board of Trade.

Ninth. The proprietors or managers of such warehouses shall accord every facility to any duly authorized committee, for the examination of their books and records, for the purpose of ascertaining the stocks of all kinds of grain and flaxseed which may be on hand at any time. Such examination and verification shall be made at least twice each year, by the Warehouse Committee, or any other duly authorized committee to be appointed by the President, which committee shall have authority to employ experts to determine the quantity of grain in the elevators, and to compare the books and records of the said regular warehouses with the records of the State Grain Warehouse Registrar.

REGULATIONS

GOVERNING THE

“Department of Grain Sampling and Seed Inspection.”

ADOPTED BY THE BOARD OF DIRECTORS OF THE BOARD OF TRADE
OF THE CITY OF CHICAGO.

First—The Board of Directors shall appoint a Committee of Five, members of the Board of Trade, who shall have and exercise general control over the Department under the conditions and provisions contained in Sections 1, 2 and 3 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

Second—This Committee shall appoint and fix the compensation of a Chief Grain Sampler, subject to the approval of the Board of Directors.

Third—The Chief Grain Sampler shall furnish a bond for the faithful performance of all and singular the duties of his office, said bond to be satisfactory in all respects to the Board of Directors.

Fourth—The Chief Sampler may employ such assistance as needed, when approved by the “Department of Grain Sampling and Seed Inspection,” and the Department will fix the compensation for such assistance.

Fifth—The Department shall make monthly reports of all receipts and expenditures. All expenses must be approved by the Board of Directors.

Sixth—The charge for services rendered by this Department shall be uniform to all persons, firms and corporations, and shall not be changed without proper notice being given of the proposed change, such notice to be posted in a conspicuous place in the Exchange Room of the Board. This Department may charge a higher rate in special cases outside of the Chicago district, but in no case can it make any reduction from the established rates.

Seventh—Nothing in the foregoing regulations shall prevent the buyer or seller, or his representative, from personally examining any car or cargo of grain bought or sold under the Rules of the Board of Trade of the City of Chicago, but under no circumstances can a Board of Trade official certificate be given by the party thus examining; any unofficial party, or his employer, inspecting any car or cargo of grain shall not have the right of appeal to the Grain Committee, unless the grain has been loaded under the supervision of the Official Sampler of this Department.

Eighth—The fees authorized to be collected by this Department for sampling grain shall be as follows:

Thirty (30) cents per carload for sampling grain.

Twenty-five (25) cents per 1000 bushels for sampling grain loaded into or unloaded from vessels.

Ninth—The Grain Committee shall arrange with the State Grain Inspection Department for the appointment of helpers whose duty it shall be to secure samples of every lot of grain graded by the Department in Chicago, as far as practicable, whether such grading be in or out of elevators or track arrivals. The same facility shall be accorded to such helpers for the purpose of examining and sampling grain loaded into vessels or cars at any private elevator or cleaning house by the proprietors of such houses and their employes, as is now accorded to regular State Inspectors.

Tenth—Such helpers shall be required to give bonds. They shall be subject to control and discharge by the State Grain Department, exactly as are the Deputy Inspectors. They shall be appointed on recommendation of the Grain Committee. Their salaries shall be paid by the State Grain Department with money furnished if necessary by the Board of Trade. When not actively engaged in duties described by the State Grain Department they shall be subject to control and direction of the Chief Sampler in such work as he may require.

Eleventh—It shall be the duty of such helper to bring the samples of graded grain, secured as above, to the Chief Sampler's office daily, for use in examinations by Supervising Inspectors, the Appeal Committee and the Official Sampler. The identity of such samples shall be known, however, only to the State Department and to the Official Sampler.

Twelfth—Such samples shall be kept on file in the Chief Sampler's office a reasonable time, labeled, however, by grades and numbers which shall indicate their identity only to the State Department and the Official Sampler, and thus unidentified they shall be accessible to the public.

Thirteenth—It shall be one of the duties of the Official Sampler to thoroughly examine these samples daily, and in case any of them indicate improper grading, he shall, in case the Chief Inspector, the Supervising Inspectors or the Appeal Committee have not already taken up such improper grading for correction, call their attention to same, explaining in what way the inspection has been too lenient or too rigid.

Fourteenth—In case the Official Sampler or any other party at interest, i. e., the buyer or the seller, should thus complain to the State Department and fail to have his complaint properly or favorably considered by the State Department, it shall be the duty of the Sampling or Grain Committee to listen to his complaint, and if it is in their judgment reasonable, the other parties at interest shall be notified, and the matter taken up by the Grain Committee with the State Department—all parties at interest being given an opportunity of being present at such hearing.

Fifteenth—In the examination of samples of grain inspected, a standard sample shall be used as a gauge, and in case of doubtful grain, which is very near the "line," a comparison shall be made with such standard sample, and in case of disputes calling for an appeal, final decision shall be rendered in accordance with such comparison.

Sixteenth—Standard samples above referred to shall be made up as early as possible at the beginning of each crop year, and approved by the State Inspection Department, Appeal and Sampling Committees and the Official Sampler—all working together to make up a fair and equitable standard.

Seventeenth—In cases where it is necessary for the Grain or Sampling Committee to take the question of moisture into account, rendering a chemical analysis necessary, this shall be made promptly.

Eighteenth—Nothing in the above shall be understood as giving the Grain Committee any privileges relative to the examination of samples or the knowledge of their identity other than those enjoyed by the public, excepting when complaint is made to them under the provisions of the above regulations, or when an appeal is taken as is provided in Section 17 of Rule 22, 2nd paragraph, in which case the examination shall be made at such time and place and after such notification as will give all parties at interest an opportunity of being present.

Nineteenth—In case it should not be feasible to obtain samples of track arrivals in the manner above outlined, owing to the volume of grain coming in, an arrangement may be made with Receivers' agents to work in conjunction with Inspectors to take an extra sample for file in the Chief Inspector's office as above outlined.

Under the provisions of Section 33 of Rule IV, the following regulations were adopted by the Board of Directors

It is the sense of this Directory that solicitors may be employed as provided in Section 33 of Rule IV of the Rules of the Board of Trade of the City of Chicago, upon a salary, subject to the following restrictions:

Solicitors employed under the provisions of said rule must be bona fide solicitors. Such solicitors may receive from their employers compensation in the form of a fixed salary; such salary not to be changed until it has been in force at least six months.

The solicitor so employed shall not receive any compensation, either directly or indirectly, for business sent by him for his personal account, or upon which he has received a brokerage or a division of commissions; nor, for business executed for the account of any firm of which he is a member or employe, or a corporation of which he is an officer, stockholder or employe.

No solicitor shall be employed under the provisions of said section of Rule IV by more than one employer at the same time.

The employer shall keep and preserve records showing the compensation paid such solicitor, subject to examination at any time by the Membership Committee.

A member of this Board acting as a solicitor, upon a fixed salary, is not entitled to a division of the commission earned upon business obtained from non-members.

The names of applicants for the appointment of solicitors, together with the names of those submitted to be appointed solicitors, under the provisions of Section 33 of Rule IV of the rules of the Board, must be posted upon the bulletin board in the Exchange room for the period of at least ten days before being acted upon by the Membership Committee.

The foregoing regulations refer solely to members and non-members employed as solicitors at fixed salaries. Nothing herein contained shall be construed as prohibiting a division of commissions between a clearing member and a non-clearing member from non-member's business obtained for the former by the latter; however, no soliciting member shall receive both a division of commission and compensation in any other form for such services.

A statement shall be filed with the Secretary of the Board in form as given below, and said statement shall be duly recorded in the office of the Secretary and be accessible to members of this Association.

Regulations for the Weighing of Grain.

Under and by virtue of the provisions of Section 2, Rule IV, of the Rules of the Board of Trade of the City of Chicago, enacted in pursuance of Section 10 of the Act to Incorporate the Board of Trade of the City of Chicago, the following regulations are adopted by the Directors of the said Board of Trade of the City of Chicago, for the guidance and information of the Weighing Department and the members of this Association.

REGULATION 1.

Received or transferred grain shall not be cleaned or blown before weighing, nor shall it be subjected to such handling as will cause loss in weight. This prohibition shall also apply to shipments after weighing.

REGULATION 2.

No dockage from actual weights shall be allowed on in-coming or out-going grain, except when unusual dirt or foreign matter is inseparably mixed with the grain, in which case it shall be the duty of the weighmaster or his deputy to determine the amount of unusual dirt or foreign matter, and to weigh the entire contents of the car. All allowances for unusual dirt or foreign matter shall appear on the face of certificate issued for such cars.

REGULATION 3.

All cars when unloaded must be thoroughly swept and cleaned, except in cases where cars contain foreign matter unsuitable for mixing with grain. Then it shall be the duty of the weighmaster or his deputy to determine the amount of grain and foreign matter to be left in the car. This amount shall be stated on the certificate of weights for each car, but such amount shall not be included in the net weight as shown by certificate.

REGULATION 4.

If hopper scales are used in determining the amount of grain a car contains, it shall be the duty of the elevator operators unloading such car to deliver to the scales the entire contents of said car except where cars contain unusual dirt or foreign matter not covered by Regulation 3, because not suitable for handling by elevator.

It shall be the additional duty of said elevator operator to clean thoroughly the unloading pits and the floor adjacent to such pits of any of the contents of said car that may have lodged there and deliver such contents to the scale to be weighed and credited to said car.

REGULATION 5.

The contents of each car shall be weighed in as few drafts as the scale in use will permit.

REGULATION 6.

The weighmaster and his deputies shall be allowed to handle the scale beams in the performance of their duties.

REGULATION 7.

Certificates of weight shall bear the date of weighing, and when issued for cars that have been loaded with grain which, for any reason, are subsequently returned to the loading elevator and wholly or partly unloaded, shall promptly be returned to the weighing department by the member, firm or corporation receiving such certificates.

REGULATION 8.

No certificates of weights shall be issued on grain unloaded or transferred en route unless they are applied for within a reasonable time after cars are weighed, and before they have had time to arrive at their destination.

REGULATION 9.

A straight transfer must consist of the transferring of grain from one car to another without its identity being lost. If transferred through an elevator, the grain must go direct from the western or unloaded car to the scale and from the scale direct to the eastern, or car to be loaded without going into or through any house bins.

REGULATION 10.

All cars that are to be loaded with grain shall be in a suitable condition to carry such grain safely. In case cars are loaded that, in the judgment of the weighmaster or his deputies, are not in proper condition to carry grain safely, the parties loading such cars shall at once be notified, and a statement of the condition of the car shall appear on the face of the certificate of weight issued for such cars.

REGULATION 11.

The weighmaster in regulating the details of his office and the service of employes may, with the consent of the Weighing Committee, make such regulations as may be requisite or desirable in order to secure correct weights.

REGULATION 12

Any member, firm or corporation of this association receiving weight certificates not belonging to them shall return promptly such certificates to the weighing department, in order to facilitate delivery to the rightful owner.

REGULATIONS

GOVERNING THE

Employment and Duties of "Receivers' Agents"

"Receivers' Agents" shall be understood to mean persons employed to sample grain and seeds upon the recommendation of the Other Inspection Committee, under the provisions of sections 1, 2 and 3 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

REGULATION 1. The duties of such "Receivers' Agents" shall be as follows: To furnish consignee with railroad notices of arrival of grain and seeds, and true and correct samples of the same; also, with a statement showing the grade of each car of grain, embraced in such notices, as inspected by the State Grain Inspection Department—such notices and samples to be delivered to consignee in the Exchange Room of the Board by eleven o'clock A. M. of each business day. In the case of delay in furnishing such notices and samples, satisfactory reasons for such delay must be furnished to the Other Inspection Committee.

REG. 2. Samples of grain furnished by "Receivers' Agents" shall be drawn at as nearly the same time as possible as the grain is graded by the State Grain Inspection Department; and in case of disagreement as to the grade of such samples, notice of such disagreement must be filed immediately by "Receivers' Agents" with the Deputy State Inspector by whom such grain was inspected:

REG. 3. In case of disputed claims presented against "Receivers' Agents," the justness and correctness of such claims shall be determined by the Other Inspection Committee.

REG. 4. The fees authorized to be collected for the services of such "Receivers' Agents," under the foregoing regulations, shall be twenty (20) cents per car for grain or seeds arriving over the C. M. & St. P., Ch. & Alton, Ill. Central, C. Gt. Western, C. B. & Q., C. & N. W. (Gal. Div.), C. & N. W. (Wis. Div.), Wis. Central and the C. R. I. & P.; and over the Monon, Wabash, C. & E. I., A. T. & S. F. and L. S. & M. S., 25 cents per car.

REG. 5. "Receivers' Agents" shall be under the general control of the Other Inspection Committee.
